

MD. KHADIMUL ISLAM (LITON)

QA MANAGER — FACTORY QUALITY & TECHNICAL MANAGEMENT (RMG)

EXECUTIVE PROFILE

Accomplished Quality Assurance and Technical Management professional with 16+ years of progressive, hands-on experience across garment factories, liaison offices and buying houses in the Ready-Made Garment (RMG) industry. Proven expertise in factory-floor quality control, technical audits, pattern engineering, in-line/pre-final/final inspection, and production quality across Knit, Woven (Denim & Non denim) products.

Skilled at leading QA/QC teams directly on the production floor, coordinating with cutting, sewing and finishing sections, driving root-cause analysis and CAPA closure, and ensuring full compliance with international buyer specifications from sample stage through final shipment. Strong record of improving factory quality performance while maintaining production efficiency.
